Ceiling Compatibility

T Mount: Non-Accessible Ceiling

Specifications

- | | | | |
|---|---|---|---|
| A Adjustable hanger clamps (grid ceiling) | E Splice access plate with (2) KOs (connector and conduit by others) | H Toggle brackets (non-accessible ceiling) | L Integral constant current driver |
| B Formed aluminum back box with flange trim | F Hex head locking screws | J Splice compartment | M Field serviceable light engine with asymmetric optic |
| C Mitred extruded aluminum door frame, silicone gasket | G Micro-prismatic tempered glass lens | K Extruded aluminum heat sink housing | |
| D Aluminum yoke arms | | | |

Features

- Evenly lights entire wall – housing aperture is shielded
- Adjustable aiming – tailor distribution to wall height and setback distance
- Shallow recessed depth – fits under ducts at core walls
- Several lumen packages that put the light on target

Performance

Precisely extruded acrylic lens produces an asymmetric distribution ideal for illuminating walls evenly.

L90(10k) > 60,000 hrs. @ 25°C per TM-21

For LM79 and photometric reports, visit thelightingquotient.com

Optic Assembly:

Formed aluminum housing, back box and trim frame; stainless steel hardware and spring mounting clips. Extruded aluminum heat sink/housing, Precision extruded polymer refractive lens with optimized asymmetric distribution. Light engine may be removed for service or upgrade. Acrylic lens with elliptical diffusion maximizes lateral distribution without disturbing asymmetric forward throw.

Finish:

Exterior surfaces – 6 stage pretreatment and electrostatically applied thermoset polyester powder coating for a durable abrasion, fade and corrosion resistant finish.

Extruded aluminum heat sink/housing, yoke arms, door frame and decorative end plates are finished in semigloss white. All luminaire hardware is stainless steel; mounting hardware is zinc or electroplated steel.

Mounting:

Mounting/trim frame installs from below finished ceiling. Retrofits into existing non-accessible ceilings.

Spring clips provided for rigid ceilings (drywall, plaster) up to 1-3/4" (44mm) thick.

Supplemental support wires, bar hangers, etc. (by others) required for accessible ceilings. Where wire suspension is prohibited, order accessory universal mounting brackets for use with 1/2" EMT, 1-1/2" lathing or C channel (by others).

Fixture weight: 4.0 lb/ft (6.0 kg/m).

Electrical:

Integral electronic HPF constant current driver(s). For complete driver specifications, see website, reference document [MA-1303](#). Access plate on top of back box with two 1/2" knockouts for supply wiring. Internal splice compartment allows for access to splices below ceiling.

Standard:

CSA Certified for dry locations For damp location specify "OP" option. Suitable for insulated ceilings (Type IC). 5 year warranty, maximum ambient temperature 45°C (113°F)
