Specifications

- A Serviceable extruded aluminum heat sink/housing
- Extruded acrylic beam shaping lens
- **C** Stainless steel end plates with interlocking tabs
- **D** Rotation locking tab with locking set screw
- E Aluminum side arm with adjustable mounting tab (fasteners by others)
- F Constant current LED board
- G Conduit entry (one each end, conduit and connectors by others)
- H Driver/housing joiner screw (one per fixture)
- Extruded aluminum driver housing and drivers
- J Supply conduit and connections by others

Housing and Optic Assembly:

Extruded aluminum heat sink/optic housing. Exterior heat sink anodized for maximum emissivity. Stainless steel end plates. Extruded acrylic refractive semi-diffuse asymmetric beam shaping lens. Extruded aluminum driver housing and removable cover.

Finish:

Optic assembly - bright anodized aluminum. Side arms and driver compartment - mill finish aluminum or painted semigloss white for natatorium option. Painted surfaces receive a 6-stage pretreatment process prior to electrostatically applied baked powder enamel.

All hardware - stainless steel.

Mounting:

Lay-in installation, side arms with mounting tabs can be base or wall mounted (fasteners by others). Luminaires can be mounted individually or joined together to form a continuous row. Optical assembly aiming is adjustable and is fixed in position by rotation locking screws at each side arm. When mounted in a continuous row, assemblies lock together allowing all in the row to be aimed together.

Fixture weight: 1.7 lb/ft (2.5 kg/m).

Electrical:

Use 90°C wire for supply connections. Integral electronic Class II drivers. For complete driver specifications, see website, reference document MA-1303. Driver/wireway compartment includes one conduit entry at each end. Channel cover is removable for access to driver and wiring. Luminaires may be butted end-to-end (connectors by others) for through wiring. Optional #12 AWG prewired modular through-wiring with guick connectors. Optional, compatible dimming controls (by others). See website for dimming compatibility and specifications.

Standard:

UL listed or CSA certified for damp locations. For natatorium use, specify **0P** or **PK** option. 5 year warranty, maximum ambient temperature 45°C (113°F).

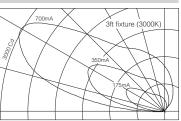

Features

- Tunable White Now Available!
- Asymmetric distribution uniform surface illumination
- Wide lateral distribution no socket shadows
- Fully adjustable and lockable optic assembly
- Integral driver with optional pre-wired harness
- Slim profile ideal for tight coves

Performance

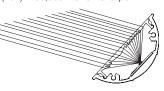

Precisely extruded acrylic lens produces an asymmetric distribution ideal for illuminating ceilings evenly.
