THE LIGHTING QUOTIENT

Glumac Orange County Office, Irvine, CA
The first demonstration project in the Office of the Future program, a multi-utility energy efficiency program for commercial office spaces and projects.

- Self-powered, wireless lighting and HVAC control
- Photo sensors for daylighting harvesting
- Motion occupancy sensors
- 50 footcandles at the worksurface
- 0.3 w/sf during daylight hours
- No overhead wiring or luminaires

Architect: Gensler
Lighting Designer: Carlos Inclan, Glumac
Electrical Engineer: Jennifer Berg P. E., Glumac
Photographer: RMA Architectural Photography
